Hi Josh,

Thanks so much for the information. I appreciate your quick and helpful response. I will be sure to contact you with any questions.

Best wishes,
Heather

Subject: Washington County Private water wells in area with C8 concerns

Hi Heather,

This is Joshua Lane, Director of Environmental Health at the Washington County Health Department. I am writing for a couple of reasons 1) I have recently spoken with Rebecca Fuggitt at ODH and discussed what information you needed from Washington County Health Department, 2) to inform you that Ken Robinson (former director of environmental health) retired and therefore any messages that may have been sent to him for information regarding water wells, were lost in the mix after his retirement. My phone number is (740) 374-2782 Ext. 1014. 3) I have checked all of the well permit records since our last recorded contact with you in the "Consent quarterly progress report No. 37. There is one well that has been drilled in the area of concern. That well was drilled at **Ex. 9 Wells** The contact information for the owners:

Ex. 6 Personal Privacy (PP)

This well was completed 10/5/15 and final approval was given by this office 1/11/16.

I will be on the conference call tomorrow, if there is any other information I can help you with please let me know.

--

Joshua P. Lane R.S.
Director of Environmental Health
Washington County Health Department
